

Magnificent Print Technology For The Highest Visual Demands...

When you require superb print quality, the focus is to produce the highest resolution, with strikingly brilliant colors, on any substrate imaginable for posters, signage, or advertising, think of **FormTech** Printing.

FormTech offers the latest in advanced digital wide-format print technology. We can print very small detail, down to 4 pt font sizes, and up to 1,200 dpi, in 4 ft x 8ft areas with dazzling accuracy. This incredible quality and versatility is now possible with Liquid Ink Technology combined with a UV curing technique.

Thanks to a newly developed digital printing process, we reach extremely high printing speeds, with excellent quality, laying down up to 10 layers of ink, which makes these printed products incredibly economical.

The ink is environmentally friendly because it does not contain solvents, which benefits our pressman as well.

When you want to impress.....Contact us: www.formtechprint.com.
